

**THE POWER TOOLS:** These tools comprise the powerful yet easy to use applicant management and screening system that is at the heart of the BayStreetJobs.com experience. They were designed closely with Human Resources Professionals and Agency Recruiters to save you time and help you quickly find the right candidates from our extensive database. Putting key functionality at your fingertips, these tools allow you to screen, view, manage and request interviews all on one screen. You can also view comments made by other users

at your firm about applicants that have applied to your company's postings in the past. These features are not available anywhere else in the Internet job market today. The amount of time you save will immediately reflect a return on this amazing investment. Best of all, these indispensable tools are **included with all of our posting packages.**
